Tabor College, *Bachelor's in Science*

Jan 2018 - May 2019

Butte College, *Associate's in Science*

Jan 2016 - Dec 2018

EXPERIENCE

Senior Full Stack Developer, La Jefa Mexicana (McPherson, KS.) Dec. 2021 - current

- Built websites using React, Context API, and React Query
- Introduced/Implemented React Query with Axios to control app data/states
- Built responsive websites with Antd and Styled components
- Used Formik/Yup for form validation
- Built and leveraged reusable custom hooks
- Defined types with TypeScript
- Led/mentored team members
- Created REST endpoints with Node/Express with Auth0 user authentication
- Monitored performance and bugs with Datadog and Sentry
- Improved unit test coverage with Jest, implemented Cypress e2e testing
- Implemented docker for frontend app, Redis/PostgreSQL/backend apps

- Implemented CI/CD pipeline
- Used AWS to deploy apps and database

MERN Stack Developer, The Training Facility (McPherson, KS.) May. 2020 - Dec. 2021

- Implemented user interfaces using React/Next and Redux
- Used Material UI for UI development
- Used all modern React skills like Context API, Reducer, and custom hooks
- Used Apollo GraphQL for api data fetching
- Defined core custom hooks that can be used for the whole project
- Built payment form integrated with Paypal and Credit Card
- Contributed to mobile application development with React Native
- Successfully increased new features and reduced code complexity
- Implemented SEO best practices to improve search engine visibility
- Designed and implemented microservices by using cloud run, cloud functions, and clouttasks
- Implemented secrets value management by introducing secret manager

Frontend Developer, Doxie Designs (McPherson, KS.) Dec. 2018 - May 2020

- Built pixel perfect, responsive React/Vue website from Figma design using React
- Used Redux Thunk for async api fetching and global state management
- Worked in typical Agile team to define and work for sprint
- Used Redux for state management

SKILLS

- JavaScript, TypeScript
- React, Redux, Context Api, Hooks
- Node
- React Native
- MySQL, PostgreSQL, MongoDB
- RESTful API, GraphQL, Hasura
- GCP, AWS
- Auth0
- Jest, Cypress, React testing library
